## Spa Range

The Spa Range boasts a variety of luxurious manicure and pedicure treatments, which can be used both in the salon and at home. Inspired by nature, the range has been created through the blending of carefully selected botanicals with highly effective vitamins and antioxidants. The range is made up of a variety of hand and body products including Apricot Kernel Scrub, Potpourri Aqua Soak and Hand & Body Butter, all specially developed to work in harmony with Bio Sculpture Gels.

All products are moisturising and nourishing to the skin, designed to care for the client and technician, as with all Bio Sculpture products.
