

BF75

Features

Honda Marine's BF75 provides powerful acceleration and best-in-class fuel efficiency in both fresh and salt water.

Inspired by the engine architecture of Honda's Jazz automobile, the 1.5-liter, 16-valve, in-line 4-cylinder engine features Electronic Fuel Injection for easy starting and exceptional fuel economy.

Honda's patented Boosted Low Speed Torque (BLAST) system advances ignition timing during "hammer-down" acceleration for explosive holeshots, while a Lean Burn Control system adjusts the air/fuel mixture for maximum fuel efficiency at cruise.
